

Community Integration Policy

Premier le Reve is committed to the integration of the people and businesses in immediate proximity of its business.

The hotel aims to have appositve social and economic impact and wherever possible minimize or eliminate instance of negative impact.

The primary goals related to our community police are therefore as follows:

- Provide a representative from the hotel who will liaise with Community Leaders and Group to aid communication, this currently being The Human Resource Manager.
- Provide assistance for work being carried out to benefit the Community as whole and consider how it may help by the provision of in kind support
- Offer facilities and service where feasible to those people living or working in the immediate area of the hotel.
- Provide information when appropriate to community leaders of intended building works or other significant activities that may adversely affect those living and working in the immediate area surrounding the hotel
- Whilst ensuring our quality of product is not compromised; we aim to purchase and promote produce from the local area.
- The Hotel recognizes the importance of employing local people as employees thus enabling them to stay within their community rather than seek employment opportunities elsewhere.
- We believe this police will help to preserve the vital community fabric that forms part of our unique hospitality product in Hurghada, Egypt
